Mrs. A. Henley
713 La. Street
Lawrence, Kansas

Dear Mrs. Henley:

As you are aware, we now have a Douglas County Historical Society for which we are gathering worth while material.

While at the Smithsonian Institution at Washington, I saw an electric brougham which looked very much like yours and it made me feel bold enough to ask you if you would like to present your car to our Douglas County Society whenever you are ready to discard it. Should this meet with your approval, will you write a little story in regard to the car, when you bought it and of any special trips of interest that you have taken in it. Please understand that this in no way is a request for an immediate response unless you are contemplating getting rid of the electric.

With warm personal regards, I remain,

Cordially yours,

WCS:GM
