Dear Dolf:

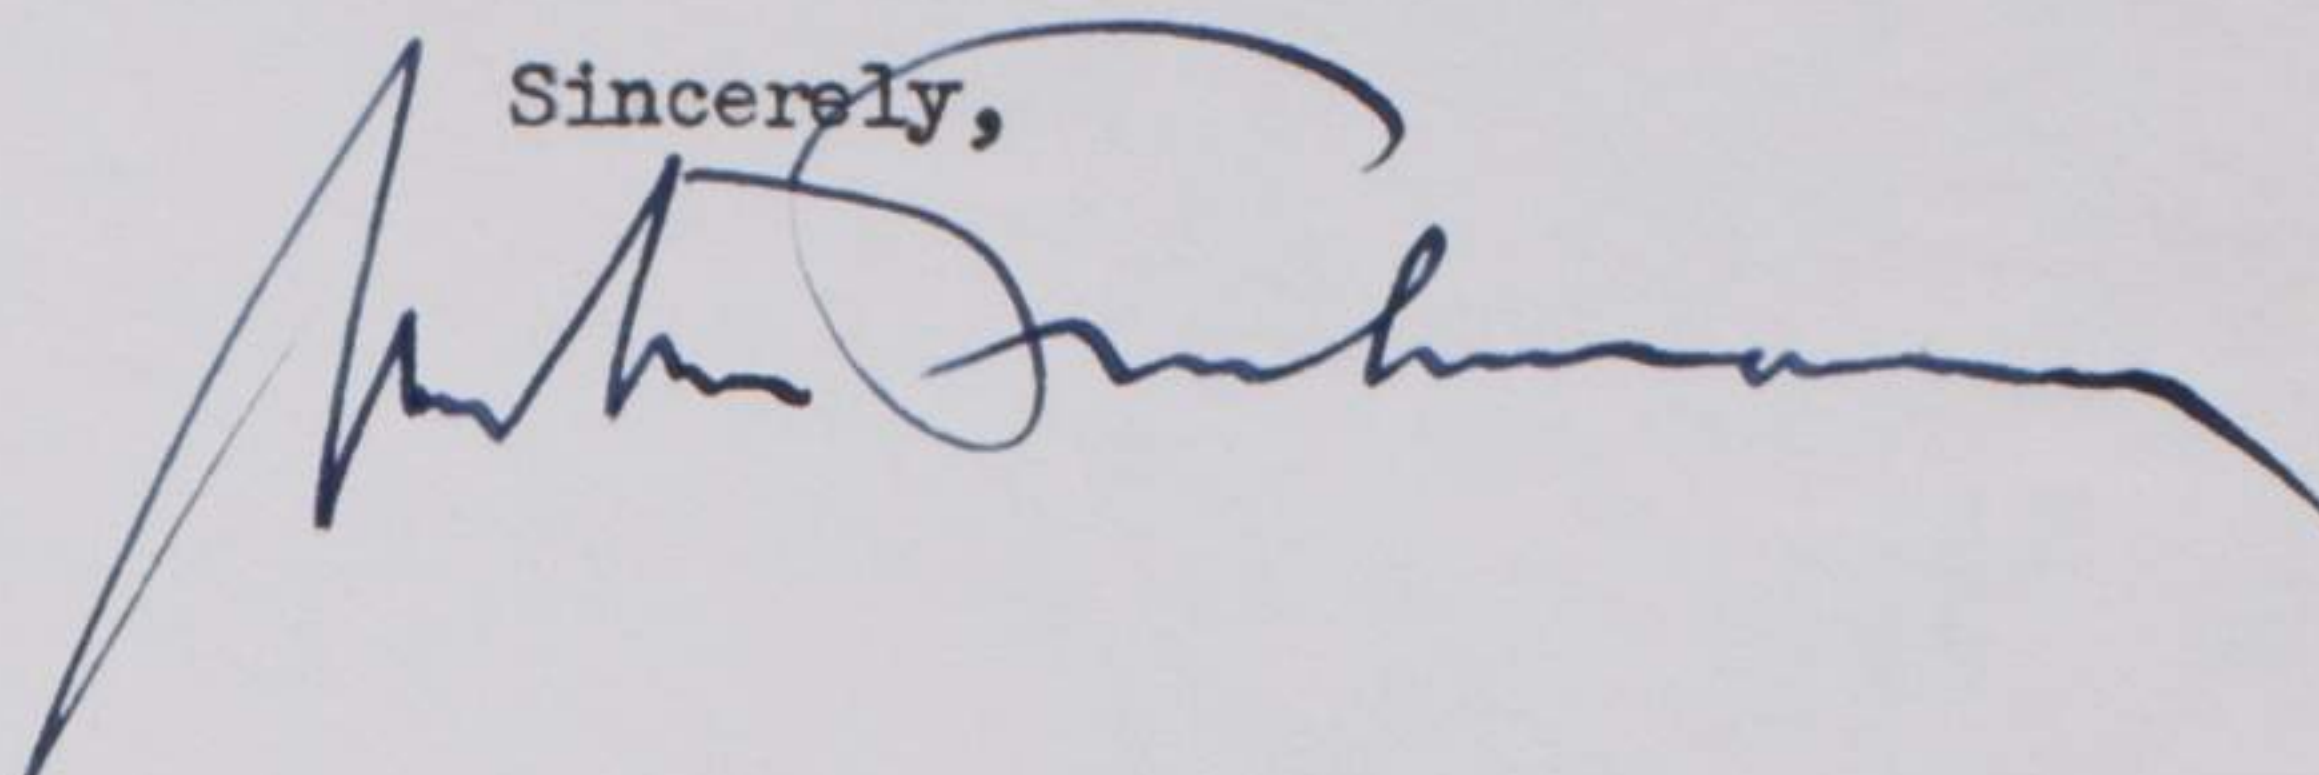

I read with sorrow about the death of your Father.

While we all realize living to the age of 80 is a pretty fair shake it is nevertheless difficult for those left behind, particularly on you because of your closeness to your Dad.

I came in contact with your Father since 1943 in connection with the William Allen White Foundation Meetings and we have had many fine visits.

This is to tell you that we are thinking of you at this time and send you our condolence.

Sincerely,
