take care of them. In view of this I no longer feel that I can take the responsibility of keeping the machines up.

There is also a personal side to this I feel you should know about. At times when something particularly perplexing would come up, I would worry so much about it that my work and physical condition would suffer. This would have a bad effect on both my home life and my association with fellow employees.

Therefore I am asking you to relieve me of the duties of machinist. I am willing to do whatever I can to help
