DAWSON

NEBRASKA

Oct. 13, 1944.

Dear Dolph:

I have not been able to make a great deal of headway on the shells, but did pick up 2 boxes 12 ga. from D. this weekend no. 4 and no.6 shot. My uncle at Nemaha is also saving me a box and indicated that he would have more a little later and I will pick them up the first time I get over there.

We can bring them down with us when we come early in November ~~ix~~f that will be satisfactory. The post office department will not accept ammunition for shipment and the the Ry. Express require that they be boxed in wooden boxes.

Mother fell and broke her arm Tuesday. It was rather a shock to her, but she is getting along fine now and apparently does not bother her a great deal.

Give my regards to the family,

Yours

Bus.
