Of Agews

Old men be neuer troubled with soe agews becaus
ther bodys be could also sharpe diseases are fudged in
14 dayes quartern a gews in summer be uery short in a
tome much longer in winter longest of all all diseases in
the haruest seasen be perelus but in the springe more
gentell in the summer doe chesly kaigne continuall and
burning feareors Agews tercion and greatarne uomoti
ngs laskes blearnes and ulcers in the mouth and priu
members all feuers which doe not intermite and gire ou
er the third day are pereluse but if the pacient haue no
e fit that day ther is noe feberdy if great could take
him that is verry weeke thorow a continuall agew the
outward members be uery cold and the inward parts
be uery hot and dry it is a token ~~that~~ ^{that is at hand} death is a sud
en laske or deluge in a continuall feareor if the lipes
the eyes the nose or the mouth be wothern and out of
fashion so that the pacient canot see nor heare and
therwith all his body be weake it is a sine that death
is at hand if he that hath and agew doth swell uery
much and the dises continew it is euell for it betokeneth
longe sickness and a bundance of humors he that hath
a conuolcion disencione in the sinews and ther upon
and agew is suddenly deliuered a tercion not ended in
7 fitts is like to continew longe the yelow fanders co
ming upon him that hath and a feure befor the 7 day
is perelus sorowfull sights in sharpe agews are to be
feared unto extreme diseases extreme curse are nese
rey the pacient must for beare meat in the fitts especially
in such agews as doe intermit and come by fitts
