

Jan To make Walnuts artificial
Take some of the suger plate a fore said and print it
in the mould made for a wallnut carnell and yelow
it over with a litell safrant water with a feather th
en take searced sinomom and suger as much of one as
of the other work it up to past with gume dragone
stepped in rose water print that in a mould made
of a wallnut shell and when they be both dry cl
ose them together with a litell gume dragone

Jan To Candy the cleere Rock candy

Take spices and flowers and any dry suckets or
any preserved frute that is dry a gaine lay them
one a round wirs in and earthen pan the pan bei
ng round at the botom and broad at the tops
and take as much refined suger or brasell suger pow
der you must not take barbery suger maderenes they
are to salt pret to it as much water as will melt it that
is halfe a pint to every pound and some thing betas
and when your suger is all melted take the whit of
an ege and a dosen sponfulls of faire water beat
it together with a brushing rod till it come to froth
then put the froth from the ege in to the hot suope sett
it on the fire a gaine and boyle it till it riseth a
nd then droppe a droppe or two of cole water amongst
it and then set it off the fire and skime it then bo
yle it to a candy hight that is when it will draw
like a thred betwene ons fingers and thume then po
ure it seething hott in to your pan amongst your
frute set it upon a cassen in a chimney corner
cover it close with a blanket one the morow pour
out all the suope that will kune from it and then
set your pot in to a warme place a gaine to dry
