

weat your hands with oyle and stick them
out smoth and kowle them up and keepe th
em for your use: lay one of them one any place
that a keth being first wormed and let it lye
till it fall offe but for a cut wound or sore brest
you must dres it 2 or 3 tims a day and wipe the
plaister with a linen cloth an worne it and lay
it one againe

To Stench Bloud of a wound

Take the leane of Salt befe as much as you
think will goe in to the wound and lay it one:
the embres and let it kost till it be thorowly hot
then put it in to the wound and bind it up all
so if you see a man in dangers marke where
the wound is and if the wound be in the foot
bind him aboue the ankle and if it be one the
lege bind him one the knes is one the knce
then bind the thies and soffe one the hand a
bout the best if one the arme a baugh with
a good list 2 or 3 tims a bout

And exelent Salve ^{for}ould or new sores and for the head ache

Take parts sewett koser and perison of each halfe a
pound whit ~~lead~~ wax of each 4 ounces first melt the
sewet and wax together put in the powder and gums
and when they are relinked together straine them
thorow a peece of canvice in and other ucell and
put theire to a potell of whit wine and set it one the
fire againe and boyle it till the wine be consumed
all ways stirring it then take it from the fire and
