

Take a leuen eges and 3 whits and beat them
ed together and then put in a pint of very thick
creame and stire it well together and season it w
ith suger and mace beat small and a litell salt an
d stire it well about and then take a round dish
and buter it well or flowre it well and put it in
the dish and then lay a round trencher over it a
nd then tye it up in a cloth that is thick very cl
ose and so put it in to the pot wheas you boyle yo
ur befe and let it boyle 3 or 4 hours and then tur
ne it out in a dish and then poure on it buter
and suger and rose water and a litell sinomone
and poure it on the puding and serue it

A huge huge puding is a soft round puding ma
de with marchat and yelks of eges and creame
and nutmeg and suger and boyled and then
stuck all round about with almonds sliced
in thinn long slices all over the puding and
buter and sack for the sace and so serue it

To Take out the heat of a burne or a
scald and a proued thing in threel

Take some stone allome and the whit of an ege
and grind them well together till it is like an oynt
ment and aplye it very suddenly to the burne or
scald and it will fetch out the fire very well
and suddenly

A powder for the worms in children
