old looke of a redish Culer and are best take out the sn  
ailes and dry the shells with a moderate heat in an oven  
after the bread is drye like wise take bese and dry th  
em so and beat them severally to powder then take  
it twice as much of the bese powder as the snails and  
mixe them well together keepe it close covered in a  
glass and when you use it take as much of the po  
uder as will lye one a six pence and put it in to  
a quarter of a pint of the distilled water of beane  
flowers and drinke it fasting or upon an empty  
stomack nor eat nor drinke in 2 or 3 hours after  
this is good to cause the party to make water and  
bring a way the gravell or stone that causeth the  
stoping and hath done very much good: - - - - -

A water for a greene wound and to  
stench blood in any wound - - - - -

Take a pottle of Runing water and 3 ounces of Roc  
hallome and one ounce of whit Copres and put the  
hallome and copres together in the water together and  
let them seeth from a pottle to a quart then strain  
it and put it in to a ~~best~~ glass and if it doe blede  
much poure some of the water in to it and wet  
the clout in this water and lay upon the wound  
and allways as it dryeth wet and other therewith  
wet the cloth that lyeth upon the wound for you in  
ust not take it from the wound that was laid first  
t laid to the wound till it be stenchd - - - - -

To make one reamot

Far  
ounces of sheeps sweet and melt them together
