

bet the flowers that you feare will puer
and if you take a peece of a flead skinn it wi
doe as well as a peece of a bladder this is a
good way to keepe them up bound together

A sweet water to wash the hands

Take pincks and pick them and take damask rose
leaves and cost mary and sweet marlen and su
et margrome and muscovey and lavender
tops and orange pells and suet and still it
all together in an ordnery still

The same water the flowers stilled are as good
all most as orange flowre water if it be kept
a good while befor it be spent

To whit clath well that is used to sope
fine flaxen cloth

Take your browne cloth and lay it on a tabelle
and strick it all over very thinn with sope a pound
and a half will spread thirty ells of cloth then lay
it in a tube and drive it very well for 2 days and
lay it out for a forth night and then drive it a
gaine and lay cokopits betwene the cloth and
one the tope and worm wood and Frey and
then wash it well out and lay it out a gaine
and let a while longer and then boyle it with
cokopits and drive it 3 times in all and when
it looks whit then dry it and lay it for a forth
