

Syrrope of liversworth is and  
excellent thing for the heat of  
the livers proved for children

Take a peck of the best liversworth and pick  
it very cleane and wash it very cleane and then  
dry it in a cloth and then stampe it in a mortar  
and then straine out the Juicc and then clari-  
fie it with the whits of eyes well beat then take  
of the same very cleane and then make it as  
you doe other syrrops and give it to the child  
or to any other .....

Stone Sutt is very good for the worms in chi-  
ldren it must be made in very fine powder an  
so make it up into 4 or 5 pills and put some  
pape of apells amongst it to make it up and then  
knepe it up in the pap of an apell and give  
it them at the changes of the morne and it w  
ill doe great good give them some warme th  
ing to drink and howse after LA .....

The To Cure a Sore Brest and to dry  
up any humor in it proved thing

Take those munclepese which will look <sup>black</sup> are the best and  
will turne houre like a button when they are touched when  
you begin to take them at first take them and wash them  
in whit wine and then dry them and then begin and take  
them first one in a morning fasting and next morning 2  
and next 3 and so doe till you have taken 9 in all and  
call a gaine and begin with one and doe as betore take
