

so m fuse it all well together and put it in some
earthen thing and then straine it and bottell it
up with some lumps of lofe suger in it

Faire water and suger and Lemone pelle boyle
d together is a pretty drink you may boyle brown
t m it if you pleas or burrege or bugles or balme
what hearbe you like best

For Colicacion fits

Take mother time and boyle it in running water and if you
will you may sweeten it with a litle suger and give it to the
child often Lady lesters medison she gave nothing else

Some give children nothing but a litle cold faire water
and it hath cured them perfectly

Some call valerian charety and some call it lader to heaven

A water to drink for a fevor

or burning heat in and a gew

Take new milck worme from the cow and put it in to
the still and put in as much greene egremony as will
be well steped in the milck and so still it with and eas
cy fire the first botel is the best and the next keepe
by it selfe and or you may if you pleas mingell it all
together it is very good water to drink in hott dis
eses

A water very good for a losnes

Take new milck and put in to it some whit papaw
and so still them together and keepe the first water
by it ^{selfe} it is the best

Saseges are best to be fryed in a pan that is very cleane
with out any frying or any thing fry them browne
