

An excellent medisine for a burne or a scald
proued Mr Lan

Take the merkind of elme and take some thick cre
me that is sweet and lay the elme kine in the creame
till it hath changed the cules then annoynt it therre
with and it will cure it with out any skare remain
ing at first therre will be a crusty scabe all ouer it and
then it will scale ofe and not be any skare

For Conuulsion Fits or fits of the mother
Take new milck from the cow and put into it s
ume fine wheat flower and mingell it well toge
ther and giue it to the child and if you pleas you
may giue it black chery water also it is uery good

A good thing for a Bruse proued
for one that had a cart kune ouer him
Take fether few and boyle it in posat drink and
then drink a good drath and goe to bed and sweet
and so doe 2 or 3 times proued

To keepe the worms from breeding
and to kill them

Take the bereys of elder when they are ripe and
lay them in a siue and dry them after the bread
is drane out and make them into fine powder and
giue a sponefull or 2 euery week to children in th
eir spones meat it is an excellent thing proued

For the scowry proued

Wormwood dryed in the sunne and made into
powder is excellent for the scowry mixe with it as
much suger as powder mingle them together and take
them in a morning
