

ing for a job in New York City, but I am not discouraged yet." James stays at Prospect Park Y.M.C.A., 357 9th St., Brooklyn, N.Y. and does some poster work for the Y. When he wrote in late October he intended soon to be studying mural painting at the Art Students League. James has done the cover on the *Graduate Magazine* the past two years. Here's hoping the New Yorkers soon discover and recognize his artistic ability as well as his good nature.

Merritt E. Roberts terminated his work with Phillips Pet. Co., and is now laboratory assistant with a serum company in K.C., Kan. His address there: 719 Wash. Blvd.

Carrol Ward, b, has obtained a teaching position in Junction City.

New Addresses: Richard C. Gafford, 2397 E. Colorado, Pasadena, Calif.—Edith Bolin Lentz, ed, 221 E. 35th St., K.C., Mo.

1931

Bob Borth's young brother Bill, a Freshman this year, reported several weeks ago that Bob is doing well in his work in the business training section of the G.-E. Co., at Schenectady, N.Y. He plays basketball with the business training section team and this fall got to see the Army-Louisiana State football game. While at West Point he met Charles Broshous, fs'31, formerly of Atchison, who is a cadet and is on the Army squad. Herb Peterson, b'30, rooms with Bob.

Marian Drake has a teaching position at Oketo.

Otto F. Frederikson, Ph.D., is a professor of history and social science at the State Teachers College, Harrisonburg, Va.

Helen Hennessy contracted the rare and dangerous Malta fever in Kansas City where she has been bacteriologist at Manora Hospital since graduating last spring. The last report from Helen indicated that she was recovering, but complications accompanying the fever makes its treatment difficult and recovery slow. Helen is at her home in Iola.

Frank McClelland was nominated for attorney-general of Kansas on the Socialist ticket, but since Frank is a sociologist and not a lawyer, the party changed his place on the ticket to Lieutenant-Governor. Said Frank, "This attitude, I feel, is entirely justified, and I am altogether willing to change." At present, Frank is attending K.U. on a fellowship in sociology.

Bill Nichols, reporter on the *Larned Tiller and Toiler*, journeyed with his mother to Lawrence the first week in December to see Raymond Nichols, '26, who was in a hospital for an operation.

Rowena Partridge, fs, and her beautiful voice are appreciated out in her home town of Delphos. Since leaving the University she has kept on with her voice training and Dec. 29 gave a recital in Delphos which drew 400 persons. She sang Italian, German and American songs and received for her efforts the warmest praise.

Archie T. MacDonald, l, practices with the law firm of Anderson & MacDonald, McPherson.

W. L. Peters, e, and Mrs. Peters get in touch with the alumni office from out in Huntington Park, Calif., where they live a 7118 C. Rita Ave. They seem to be in good health and good spirits, and fast getting the California complex, for they end their good letter with, "Wish you folks back there could be out here to enjoy this grand weather. Last week we went to the mountains for New Years and in two hours from sunshine and warmth we were in snow up to our knees and it was colder than the dickens." Have they forgotten how in Kansas the weather changes many times from balmy, spring-like atmosphere to a blizzard almost in the twinkling of an eye?

John Schrag, g, continues his studies at K.U. this year. He lives at 1130 Ky. St., Lawrence.

Donald F. Showalter, Ph.D., heads the department of education at the Arkansas State A. & M. College, Jonesboro.

Frederick D. Trillingham, b, is enrolled in the graduate school at K.U. His address: 1325 Tenn. St., Lawrence.

New Addresses: Katherine Belleviere, fs, 104 W. Linwood, K.C., Mo.—Martha J. Fulkerson, Route 1, Butler, Mo.—Oliver L. Furse, e, 1547 Ky. St., Lawrence—Garold A. Kane, e, 11 James St., Scotia, N.Y.—Edna Lemon, 221 S. Olive St., Alhambra, Calif.—Robert C. Meyer, e, 45 Trowbridge, Cambridge, Mass.—Harold T. Peters, 1545 Mass. St., Lawrence.—Merle R. Schwartzkopf, b, 725 R.W. Bldg., Hutchinson.—Filadelfo A. Tugade, e, 87 Tortuosa, Samaloc, Manila, P.I.

Faculty

Dr. E. H. S. Bailey has gone to be at the home of his son Herbert for the winter. Address: 1122 N. Euclid, Ontario, Calif.

Dr. and Mrs. W. L. Burdick will make a tour of world starting in September. Dr. Burdick intends to visit seats of government in various European countries with the view to completing several manuscripts upon which he is working. They will return the fall of 1933.

Dr. H. P. Cady, '97, g'03, has recovered from a long and severe case of laryngitis which attacked him about the first of October and kept him speaking in a whisper until Christmas. His efforts to continue his lectures doubtless resulted in the continuance of the hoarseness. He is now able to talk in private conversation and has lectured to some small groups of graduate students. He hopes to resume lectures to large classes the second semester.

Prof. E. F. Engel, '92, of the department of German, will again be chairman for the north central district of Phi Beta Kappa for the triennium 1931-34. Eight states with fifteen chapters of Phi Beta Kappa are in his district.

Prof. H. F. Holtzclaw, of the School of Business, is author of "Agricultural Marketing," a book released recently by the Ronald Press, New York. It is to be used as a text and reference book for college classes.

Miss Rosemary Ketcham, head of the department of design became ill while visiting relatives in the East during Christmas vacation. She is recovering but has been absent from her classes since the holidays.

Chancellor and Mrs. Lindley visited during Christmas holidays in the home of their son, Ernest K. Lindley, and Mrs. Lindley, in Pennsylvania, near New York City. The chief attraction was the little grandson, Johnathan, just three months old, whom the adoring grandparents had not seen. While in New York Dr. and Mrs. Lindley saw several alumni, including Florence Finch Kelly, '81, Jerome Beatty, fs'08 and Dorothea McKnight Beatty, fs'19, Lawrence Morris, l'14, and Virginia Goff Morris, '15, and Henry McCurdy, '21, and Mrs. McCurdy.

Dr. James Naismith returned to Lawrence Jan. 11 from a trip to New York City where he went to deliver an address to the Society of Physical Education sponsored by the Windgate Memorial Foundation for the promotion of athletics. His speech will be published in a volume in which are to be found speeches of only the foremost athletic authorities of the country, and will eventually be used for the promotion of athletics. While in the East Dr. Naismith learned of the illness of his uncle at Almonte, Canada and he went to the bedside of his relative before returning to Lawrence.

Dr. C. F. Nelson, head of the department of biochemistry, read a paper Jan. 12 before the Topeka Dental Society. "Calcium Metabolism in Health and Disease," was his subject.

Prof. J. H. Nelson, of the department of English, suffered two falls during Thanksgiving vacation, one of which resulted in what was believed to be a concussion of the skull. He was absent from his class for some weeks but it now on the job again though not fully recovered.

Prof. F. N. Raymond, instructor of English in the School of Engineering, was elected president for the coming year of the Lawrence Sons and Daughters of New England.

Dr. L. V. Redman, formerly industrial fellow at K.U. and now vice-president and director of research of the Bakelite Corp. of New York City, has been awarded the Graselli Medal as a tribute of distinction for his researches on the plastics by the American section of the Society of Chemical Industry, a British organization. Dr. Redman is president elect of the American Chemical Society.

Prof. H. E. Underhill, of the Business Placement Bureau of the School of Business, went on a two-day job hunting trip Dec. 8 in the interest of students needing Christmas vacation jobs. He took in Kansas City, St. Joseph and Atchison. "It is true that paying jobs are scarce and most of them are commission jobs," said Underhill, "but out of 84 of last year's graduates only 16 are unemployed. Thirty-eight are with corporations; 11 are with private businesses; 9 are doing graduate work; and 4 are teaching school. We are expecting an equally good record this year in spite of the poor business conditions."

Prof. Raymond H. Wheeler, head of the department of psychology, has a new book coming out, "The Laws of Human Nature." It has already been issued in England by the Nisvet Co., as part of a series of books published under the title, "Contemporary Library of Psychology." In America it appears by itself, published by Appleton. The book is a presentation of organismic and configurational psychology in non-technical language, and in its relation to the more general problems in physical and biological science on one hand and social sciences, ethics, and education on the other, according to Doctor Wheeler.

Prof. E. A. White, of the department of chemistry, was in Utah in November experimenting with a well that produces 98.89% pure carbon dioxide gas. It is from this gas that dry ice is made simply by compression and quick release. Professor White says that dry ice may be made from this well ten times cheaper than from ordinary methods. It may have a far reaching effect on the dry ice industry and on refrigeration generally.

Help on Unemployment Committee

The December *Graduate Magazine* carried only a partial report of the part played by faculty on the Governor's unemployment committee. Both Dean F. T. Stockton of the School of Business and Prof. R. H. Wheeler of the department of psychology are members of the Committee. Dean Stockton is also a member of the executive committee and is economic adviser of the general committee. In addition to Prof. W. F. Kissick of the School of Business being technical adviser appointed Nov. 6, Prof. D. J. Teviotdale, of the same school, was made technical adviser Dec. 22 and assigned to report on management policies and educational programs that could be established in the state to minimize the effect of future depressions.

Take Part in Professional Societies

University faculty members showed their zeal for keeping up in their professions during the Christmas holidays when many of them journeyed to far scattered meetings.
