

dents from the good old South who live on that street are threatening to move if the name isn't changed. "Apparently the Civil War is still in progress here in Virginia," says Elmer. Hilary Mahin, I, now an attorney for the Phillips Pet. Co. at Bartlesville, Okla., is reported by Kemper to have been in Washington on business lately—and took the occasion to call on some of his old friends. Likewise Red Willis, I, attorney for the Veterans' Bureau in Kansas City, was in Washington and New York not long ago.

Lt. Harry K. Shane, e, is now associate civil engineer, hydrology department, Missouri River division, Kansas City, Mo.

W. T. Stevenson writes: "Just had a grand visit with George Hollingberry, '24, in Chicago, who keeps me posted on what Jayhawks are doing." Stevenson tells, among other things, more about J. Wesley Sternberg who was reported in the March *Graduate Magazine* as having taken a place as special investigator with the Federal Trade Commission. Mr. Sternberg, former Kansas instructor, is making a special study of the natural gas industry that will be used as a basis for recommending new Federal legislation relative to further control of natural gas pipe lines and utilities. Stevenson is assistant treasurer of the Kentucky Natural Gas Corp. He and Dorothy Ensminger Stevenson, fs'23, and their two children, Taylor and Margaret Moore, live at 203 Phillips Court, Owensboro, Ky.

1924

Dr. William Robinson, g, in part is responsible for the discovery of a new cure for stubborn wounds. He is employed in the Bureau of Entomology and Plant Quarantine of the U.S. Dept. of Agriculture at Washington. The new treatment is the application of a solution of allantoin, an odorless, harmless, and easily obtained product found in both insects and plants. The insect is one of a species of flies in the maggot stage that gained fame as a medical aid on the World War battle fields.

Miriam Wight will be released from her teaching position next year at Council Grove for, although she has a major from K.U., she lacks a minor, which state high school supervisors now require of Latin teachers. Miss Wight has taught in the high school there for several years. Jacquita Coe, '30, will take her place.

Dr. Robert A. Woodbury, g'28, Ph.D.'31, tells us that his baby boy, George Robert, has reached the five-months stage. Dr. Woodbury has a position at the University of Georgia in the School of Medicine as assistant professor in the department of physiology and pharmacology. The family lives at 1232 Belmont Drive., Augusta, Ga.

1925

R. A. Stirton, assistant curator of vertebrate paleontology at the University of California, Berkeley, Calif., May 7 paid a visit to K.U. en route to Texas where he planned to attempt to locate and re-open old quarries in the Lone Star state from which pioneer paleontologists of this country obtained some of their fossil skeletons. He is engaged in collecting remains of mammals of the Tertiary Age.

Zachary W. Taylor, fs, has a position with the Associated Press in Kansas City, Mo.

1926

Hilda Koehler, ed, one of the newest and youngest Life Members of the Alumni Association, stopped in at the office for a chat May 25. Hilda was on her spring vacation from her library work at Long Beach, L.I., New York. She has a new residence address there: 428 E. Fulton.

Dean McGee, e'26, has been appointed chief geologist for the Phillips Pet. Co. He has been in the employ of the Phillips Co. since graduation but was at Oklahoma City some time. He

Honor Naismith at Springfield

Dr. James Naismith, professor of physical education, this spring is one of four alumni of Springfield Y.M.C.A. College, Springfield, Mass., to be honored with the award of the Edward Morris Tarbell medallion at the commencement dinner of the college. The award bears a replica by the sculptor, R. Tait McKinsey, boyhood friend of Dr. Naismith in Canada, of a plaque entitled, "The Joy of Effort." Dr. Naismith, internationally famous as the inventor of basketball, was instructor of physical education at Springfield College from 1891 to 1896. Later he became physical education director of the Y.M.C.A. in Denver, Colo. It was in 1898 that he came to the University as professor of physical education. In 1910 he was presented with an honorary degree of master of physical education from Springfield College.

has now been moved to the Bartlesville office for his headquarters.

Archibald B. Oliver won the national contest on American Legion post histories in which more than 1000 post historians took part. Oliver's history of the Eli Farrell Dorsey post, Liberty post and Dorsey-Liberty post and their auxiliaries of Lawrence is included in a manuscript of 281 pages. Awards for the contest are to be made in September at the national convention of the American Legion in St. Louis. Oliver will receive an inscribed gold medal. His post will get an electric sign and the state department will receive a loving cup. Arch is now working on another history of the local posts and auxiliaries which will be presented soon. He lives at 1747 Kentucky St. in Lawrence.

William O. "Bill" Rice, I'28, breezed in late in May from Chicago for a two weeks vacation visit in Lawrence and Topeka. This immediate past president of the Chicago Jayhawkers still has the old K.U. fire burning in his soul. He will try to get his vacation arranged a bit later next year so as to be on hand for the tenth anniversary reunion of the great class of '26. He is a worthy staff member of the Harris Trust and Savings Bank in Chicago.

Dr. R. A. Schwegler, Jr., will open medical practice in Lawrence soon, taking over the office and equipment of the late Dr. G. W. Jones. Young Dr. Schwegler took his medical degree from the University of Minnesota in 1931 and has been on the surgical staff of the University hospital since. He is now completing his work on his Ph.D. degree. He is the son of Dean and Mrs. R. A. Schwegler of the School of Education.

Kenneth A. Spencer writes, "having a swell time and like my work fine." Vice-president and manager of the Pittsburg & Midway Coal Mining Co., and of the Jackson Walker Coal

Mining Co.; president, Southwestern Interstate Coal Operators Assn.; vice-president, Pittsburg Chamber of Commerce; member, American Institute of Mining Engrs.; and director, coal division, American Mining Congress, he manages to keep busy. His address: 1006 So. Olive, Pittsburg.

1927

Bob Dills, b, and Lucile Gabel Dills, fa'32, now live in Ft. Smith, Ark. Bob is with the Arcola Sand Gravel Co.

Walter V. Freese, g'29, continues to be a faithful follower of the University. He read the *Daily Kansan* regularly this year. Student problems and student government are two of his major interests and he always looks forward to the K.U. athletic season. "I am at heart a strong Pachacamac and believe the opposition this year was good for the old party," says Walt. He recently was re-elected superintendent of the city schools at Clyde.

Regina Gottlieb, dietitian in Menorah hospital at Kansas City, talked to the Home Economics club at the University April 30 on the possibilities for home ec majors getting work as dietitians. Miss Ruth Campbell, social case worker from Anderson county, also spoke of the opening in social work for trained home economists.

Stanley Lindley, son of Chancellor and Mrs. E. H. Lindley, makes a speedy recovery following his recent siege with pneumonia, and is able to walk about some. He holds a position as assistant at the University of Minnesota, Minneapolis, Minn.

J. Clifton Ramsey, I'30, has been elected president of the Lawrence Rotary Club. He and Helen Feller Ramsey, '31, will go to the International meeting of Rotary at Mexico City in June.

Otto O. Smith, g, and Irene Ainsworth Smith, '31, in February announced the adoption of a four-months old baby girl, to whom they have given the name, Virginia Irene.

1928

Eldon A. Ardrey, g'31, head of the department of music at Arizona State Teachers' College at Flagstaff, Easter morning directed the college's 60-voice A Cappella choir in the Grand Canyon Easter sunrise services broadcast over WREN and the entire network of NBC. Mr. Ardrey formerly lived in Lawrence.

Ken Fitch, fs, breezy young New York Life man of Wichita, will be heading soon for a summer in San Francisco and Seattle.

Louis, e, and Mary Lee Robbins Feil, fa'30, were in the alumni office May 9 on vacation from their duties at Ft. Peck, Mont., where Louis, an architectural draftsman, is an inspector of general construction on the great dam being built. Louis had great stories to tell of the mammoth structure which will stem the flow of the Missouri. The dam is 225 feet high and 1 1-2 miles long. The shore line of the impounded lake will be longer than the Atlantic sea board. Louis helped plan the Government city of Ft. Peck in which about 5000 persons now live. On the project are about 2,000 government men and 5,000 civilian employees. Many of each live in Glasgow, Mont., 20 miles away. The city of Ft. Peck is completed and the tunnel used for carrying the river flow around the site of the dam is also done, according to Louis. Other K.U. men mentioned in the conversation as being on the works include: Herb Pennington, e'27, draftsman in the dredging section, Bob Gebo, fs'28, draftsman, Allan Buckley, e'29, of the dredging section, Bob Mandigo, fs'34, a surveyor, and Bob Noble, fs'33, of the general engineer's office. Bob married a Montana girl in September.

Wayde Grinstead, fs, advertising manager for the Phillips Pet. Co., now lives at 326 Seneca in Bartlesville, Okla. With him are several other
